Doug, Lucy, Cadie, Tom, Tammie, and Adriane,

Thank you all for getting back to me regarding the TSCA workgroup meeting next Wednesday, the 4th from 10:00 – noon. I understand you can all make the meeting/call (and Tom, you'll make it if you can).

The call-in information for the meeting: **Conference call-in number** [Ex. 6 Personal Privacy (PP)], **Meeting ID** [Ex. 6 Personal Privacy (PP)].

Please note that we also have an in-person meeting option in the Ecology (ERO) conference room with videoconference capability. If there was an in-person/videoconferencing option available, can you please let me know if you would attend in person or via videoconference? If there's critical mass, we can keep this option available.

Lastly, a reminder that Chris Hladick requested a TSCA issue letter from the Task Force that summarizes the points that a number of Task Force members made at our SRRTTF meeting yesterday. There was no follow-up on the request for an issue letter at the end of the TF discussion, so I volunteered this group to pull it together. I hope that's alright with you all!

Best,
~lisa

Subject: Phone or in-person Meeting to coordinate Regulatory Reform/TSCA workgroup activities

Hello Adriane, Lucy, Cadie, Tom and Greg,
Doug has asked me to try to get some traction on a meeting with what he calls a "lean and mean" group of key individuals to finalize TSCA Workgroup activities for the SRRTTF (see attached documents) and determine a path forward. A few of you replied to Doug's email below with interest. I know [Ex. 6 Personal Privacy (PP)] has a replacement on the TF, so Chris, this email should be forwarded to her as well. In addition, Karin will be leaving the TF as her responsibilities at Ecology have changed, so we are hoping Adriane can be involved at some level or, perhaps, we can coordinate with someone at Ecology HQ who is familiar with this topic at the state level.

We are proposing to convene this group on Wednesday, April 4th from 10:00 – 12:00. This is the time earmarked for the SRRTTF Tech Track Workgroup, but the TF has indicated it would be best to use the meeting time to get work done at the workgroup level. Hopefully it's already reserved on most of your calendars.

Please respond to this email and indicate:

1. If you are still interested in participating in this meeting/call to help shape the direction of this workgroup, and
2. You are available for the meeting/call on Wednesday, April 4th from 10-noon.

If folks are available, I'll send out a meeting announcement. Thanks in advance for your reply!

~lisa

Subject: RE: Regulatory Reform/TSCA workgroup: work plan

I was thinking of a meeting with a much smaller lean and mean group of key individuals, such as me, Karin, Lisa, Lucy Edmondson and maybe Cadie, Greg and Adriane if they are available. I think we collectively could determine which organization or individuals could lead the various elements of each task. I already have 90% of this formulated in my mind, so I would mainly be looking for confirmation of the 90% and help in filling the 10% gap.

I've copied all of them on this email for feedback and to see if we can coordinate a meeting/conference call.

Doug

Thanks for all your leadership and good clear thinking on this, Doug. Would it make sense that the next steps involve convening the workgroup and identifying leads for each work area, then briefing the Task Force on who's leading each area and the thinking for who should be involved in each? Perhaps at the March SRRTTF meeting, if you can get that far by then?

Subject: RE: Regulatory Reform/TSCA workgroup: work plan

Hey Chris – I apologize for the belated response to this request, but finally had the opportunity to develop my thoughts onto paper for the activities surrounding the TSCA concern. Attached is a summary document of the tasks that I have been working on and some that have been rolling around in my head. Also included are a couple of supporting documents. It is difficult for me to put any timelines on these activities since they are quite complex and not all have defined pathways. We likely need to break some of these tasks down and pass them to other leadership to pursue as I do not have the time and resources to lead all of them on my own.

I welcome your thoughts as well as others copied on this email as how best to manage the attached.

Doug

Subject: Regulatory Reform/TSCA workgroup: work plan

Hi Folks, as lead (Doug) and participants for this Task Force work group, the goal for 2017 was/is to have a work plan. Can you come up with a list of what actions have been discussed and planned, who will undertake them (by when), anticipated goal (maybe think outputs & outcomes), and any other pertinent bits of info?

I've dummied up a simple template (covering the next 18 months, as that is the current Comp Plan implementation project horizon) that I am sending to other workgroup leads, so if possible could you put what info you have (or can think of) into it?

Thanks!
